

# WHY INVEST IN NewGait®

01

## Boost Revenue & Reimbursement

NewGait is billable under existing CPT codes, generating revenue while improving patient outcomes.

- CPT Codes:
  - 97116: Gait Training
  - 97530: Therapeutic Activities
  - 97112: Neuromuscular reeducation
- Justification for Insurance & Cash Pay: Improves gait, balance, and proprioception.

02

## Stand Out from the Competition

- Non-invasive, wearable mobility solution working with the body's natural movement.
- Bridges therapy & function by enhancing proprioception & movement control.

03

## Increase Referrals & Retention

- Gain recognition in physician networks with measurable outcomes.
- Higher patient satisfaction = repeat visits & loyalty.
- Boost online presence with compelling success stories

04

## Cost-Effective & Scalable

- Affordable alternative to robotic exoskeletons.
- Portable & easy to implement in all rehab settings.
- Low overhead, high impact – used across multiple patients.

05

## Enhances Existing Treatment Protocols

**NewGait improves:**

- High-Intensity Gait Training (HIGT)
- Post-surgical & neurological rehab
- Orthopedic & chronic pain treatment
- Balance & fall prevention (Improves Proprioception)

**NewGait boosts revenue, improves outcomes, and strengthens referrals, making it a cost-effective, high-return investment in clinical excellence and business growth.**
